SC-8220

1+1 Pocket Value & Multi Currency Counter

3 pcs.

Free Count Mode of notes and tickets.
Count number of notes.

5€ + 10€ + 20€

Value Counting
Count total value of mixed denominations.

No **Yes**

Single Denomination Counting
The first detected denomination will be counted, the other denominations will be rejected.
Multi currency mode
Count all your currencies in the bundle and print all the totals on one ticket.

Detect Counterfeits
Be sure to detect known counterfeits on the market. SC-8220 is based on ECB's requirements of authentication devices.

External UV Lamps
If the quality of some banknotes is extremely poor a UV LED is turned on below the SC-8220 to let you manually check the banknotes.

€/£/$ Easy Flex Between Different Currencies
With a single key press you can switch between up to 20 currencies and/or limit to the main one for daily use.

Easy to Update
Easy to up-date with new notes on the market. Just plug in an SD card in the value counter and you will get the latest information installed on the machine.

Old **New**

Emission Counting
When a new note is introduced on the market, SC-8220 can separate the new from the old one.

Serial Number Reading
As an SD card can receive all serial numbers and the protocols can push them to your host.

Reduce the Manual Cash Handling and Get Full Control of Your Cash

Full Flexibility for the Distributor with Minimal Effort

The SC-8220 comes with a preset of around 20 currencies. One set of currencies will be available for each main geographic region containing main international currencies and regional currencies. The distributor has the flexibility to reduce the number of available currencies to each client depending on the local sales organization. Update of notes will be available by a simple SD Card insertion.

Full Flexibility for the End User in an Enriched User Interface

The SC-8220 offers two modes to avoid time consuming and repetitive manipulations:

▸ **Multi:** The machine accepts different currencies in one single operation and provides a total note count split into the various currencies found within the note bundle.

▸ **Auto:** The machine identifies the currency of the first note in the bundle and sets itself in the mode to count this currency and to reject all other currencies. As soon as the pockets are empty, the machine turns back to the auto mode for the next notes acceptance. In this mode mixed notes of many different currencies are counted without any keyboard operation. The user can also reduce the number of currencies available through the currency button in order to have only the most current one set by one finger click, while quickly accessing the full list to activate unusual ones.
▸ Easy Roller Cleaning

You can easily clean the ink of the tickets from the roller by your own. Use a soft cloth slightly oistened with water. Cashiers can continue handling cash and maintenance costs are minimized.
▸ Easy Updating

The front SD card slot makes the update of the machine very simple. If an SD card is kept in the machine, it will contain the list of all notes counted or rejected, including serial numbers of the notes read.

▸ Easy Note Verification

A patented UV LED bar placed under the machine helps manual authentication of bad notes and counterfeits. The UV lights turns on automatically for a few seconds when the notes are rejected.

Technical Specifications

Size (L x H x W)	27,5 x 26 x 31,9 cm (10.83'' x 10.24'' x 12.56'')
Speed	800 notes/min. for serial number - 900 notes/min. for value counting - 1,100 notes/min. for free counting
Net Weight	Approx. 9.3 Kg (20.5 lbs.)
Voltage	100-240 V / 60/50 Hz
Hopper capacity	Max 500 notes
Stacker pocket	Max 220 notes
Reject pocket	Max 50 notes
Note size (W x L)	50-85 x 100-182 mm (1.97''-3.35'' x 3.94''-7.17'')
Note thickness	0.075-0.150 mm
Sensors	Dual CIS / UV / MG / IR
Display	3.2'' colour touchscreen LCD
Interfaces	USB, SD Card, LAN, serial port for printer and external display port
